

Oake Parish Plan – A community lead Plan

The Parish council are looking for members of the public from the parish to get involved with the research and development of our parish plan.

The purpose of the plan is to ensure the place we live in will develop in a positive way ensuring where all would like to continue to live here. It will be a Community Plan and not a land use plan. It can be a set of policies and an action plan for the next few years covering a range of issues such as housing, the local economy and transport. The plan could create the budget that determines the principle of the plan.

So far we have collected views from the community from the Oake Village fete. ***Do you have a view on what our Parish is like and what you would like to see in the future?***

Please contact the Parish Council on oakepc@outlook.com to be involved, or to simply state your views.
