

### **Things that the children from Class 4 (Year 3&4) really like about our local area:**

The golf club holds lots of events for children/ families  
There is parking by the post office  
We have an excellent playground  
There is a really nice community  
It's peaceful  
The shop has lots of good essentials  
It's a great place to walk your dog  
Plenty for children to do – playing and walking in the copse  
Everyone is very friendly  
There is a lot of choice if you want to go for a meal – Oake Manor, The Anchor, The Orchard  
We have a peacock!  
The telephone book exchange – we particularly love the way it is decorated at special times of the year!  
We have an excellent PTA who arrange great events like the fireworks night  
Gizmo the dog  
There are lots of pavements  
The school is well protected by security pads  
Plenty of lamp posts  
Speed bumps

### **Things we think could improve the local area:**

It really upsets us that not everyone picks up their dog poo  
Some children have been going to the park for a long time and may be getting a bit bored of the equipment – is it time to add some new equipment – more swings?  
If some new homes were built, more people could come and live in the area  
It would be great if there was a local sports team for children (football)  
Security cameras to keep people's property safe  
A swimming pool  
More choice of foods at the local shop – bakery and foods from other countries  
Dog-walkers to help people out if they aren't able to walk their dogs  
Buildings that are sustainable  
Dentist  
Police office  
Change the speed limit near the school to 20 mph  
Improve parking in the village to make it better for residents and pedestrians  
Parking of parents bringing children to school needs to be addressed because they park in awkward places which make it unsafe for people walking to school and outside of other people's property which is frustrating for the residents  
Since the big park has been built, the small park is hardly ever used, what is going to be done with it?
