

What we like about the local area:

- The different places that we can play like the play park or the local wood
- It's really quiet and peaceful. Nothing bad really happens in the area.
- Everyone is friendly and kind
- The nature and trees
- Everything is close. You can see your friends as they are nearby.
- It's easy to travel to, which means you can walk easily to each place.
- We know a lot of the people here, which is useful in an emergency
- Everyone is helpful e.g. if we kicked a football into a garden, most residents would be friendly about it
- If you want to volunteer there are many opportunities to do so
- You can walk your dog across fields and paths.
- It's pretty clean. There isn't much rubbish about
- We have a local church that we can walk to.

What we would like to make it better:

- There could be a bigger shop.
- **The amount of dog mess around the local walks. We could put up more dog waste bins around the village to help this.**
- **A place for elderly people to go and stay if needed.**
- **A few more pieces of equipment at the play park.**
- **A local sports centre. Maybe some tennis courts?**
- **The little park in Saxon Close needs a bit of TLC**
- **A second goal outside on the field outside the village hall. (Smaller goals as well.)**
- **The community could run running clubs for all ages, including children.**
- **A local medical centre**
- **A youth club**
- **A group of students could go around and visit the residents. Complete community projects with them.**
